PROFILE

Hardworking and detail-oriented individual with hands-on experience as a combine driver and foundational knowledge in software engineering. Pursuing a Software Engineering degree, I bring a unique blend of technical and mechanical skills, problem-solving abilities, and a commitment to safety and efficiency. Proficient in operating machinery and learning programming languages and software development tools. Eager to leverage my diverse skill set in a dynamic environment.

EXPERIENCE

Combine Driver

Quincy Foods | Quincy WA, 98848 | June 2023 - July 2023
June 2024 - August 2024

- Operated and maintained combine harvesters to efficiently harvest crops for Quincy Foods, ensuring high-quality yield and minimal waste.
- Conducted regular inspections and performed preventive maintenance on combines and related equipment to ensure optimal performance and reduce downtime.
- Adjusted combine settings to accommodate different field conditions and crop types, enhancing harvest efficiency and quality.
- Coordinated with farm managers and team members to plan and execute harvesting schedules, meeting production targets and deadlines.
- Identified and resolved mechanical issues promptly, minimizing disruptions and maintaining continuous operation.
- Ensured compliance with all safety regulations and company policies, promoting a safe and productive work environment.
- Assisted with other farm operations as needed, including planting, irrigation, and equipment operation, contributing to overall farm productivity.
